DRIFT TOWARDS DAVIS

May Result In Election of Democratic Senator In Delaware and Other Eastern States.

Special Leased Wire.

Philadelphia, Oct. 31.—Pennsylvania and Delaware show every sign of giving President Coolidge substantial majorities notwithstanding the effort of the LaFollette people to win the labor vote in both states.

The Republican managers are talking of a record majority, the largest of any Republican state in the Union, but they admit their difficulty in arousing interest in a one-sided campaign. The get-out-the-vote movement is proceeding so well that the chances are Pennsylvania will poll an unusually large total.

The new voters will more than overcome the losses to LaFollette for it appears that the regular Republicans have been the stay-at-homes in Pennsylvania. It takes time and money and organization to get out the vote and the Republicans have all three in Pennsylvania.

Drive for Congressional Seats.

With this effort, however, is not directed merely in getting a large vote for the sake of making a record. It has back of it a distinct drive for congressional seats. There are six Democratic districts which the Republicans hope to capture. Their chances depend entirely on what the LaFollette voters do for here, as elsewhere in congressional campaigns, the Democratic nominees have openly sought LaFollette support and in many cases endorsements have not been difficult to get.

To pick up six seats in Pennsylvania would be a material gain for the Republican administration as Pennsylvania Republicans are usually conservatives who vote with the administration. The outcome is not easy to forecast, however, because the labor vote in many districts is uncertain. The miners, particularly, have everybody guessing for while most of their leaders have endorsed LaFollette, John Lewis, president of the United Mine Workers is supporting President Coolidge and here and there are some who are following the leadership of former Secretary William B. Wilson, of the department of labor, the champion of the "Davis cause."

Pinchot Has Problem.

Governor Pinchot has concerned himself for the most part with his own situation hoping to get a legislature that will assist him in carrying out his program. He came out unequivocally for the Republican national ticket at the meeting for Dawes held recently, and he has since been working with the national organization in the hope of securing the election of Republicans throughout the state.

Just across the line in Delaware is another interesting situation, for while Delaware's electoral vote seems certain to be cast for Coolidge, the Senatorial race is by no means a certainty for the Republicans. Coleman Dupont, who won the Republican nomination after a hard struggle in the primaries has not succeeded in erasing all the friction inside the party, in fact the Democratic hopes of electing James Tunnell are based largely on the factional quarrels provoked by the primary contest of Dupont. The LaFollette groups are also out of tune with each other, the socialists, the single taxers, and the out-and-out LaFollette men being agreed on the presidential race, but not in unison on the senatorial contest.

Delaware May Elect Democrat.

As usual the traditional troubles of the Dupont family are mixed up in the situation. One wing is backing General Dupont while some of the cousins are said to be the main support of Tunnell. It would not be surprising to see a Democratic United States senator from Delaware, though this will not occur if the Coolidge majority takes on the proportions of a landslide. That is Dupont's principal hope. In the last few days there has been a drift most everywhere in the east to Davis but this is largely the vote that LaFollette took from the Democrats at the outset. It will have more of an influence on the congressional than the presidential contest.

Maryville Holds Big Lead Over Savannah

Score Is 19 to 0 at End of First Half —Locals Make Touchdown in Early Part of Game.

A few minutes before the end of the first half, Harold Miller passed twenty yards to Paul Kissinger, who was behind the goal line. Maryville failed to kick goal, and the score was: Maryville 19; Savannah, 0.

The half ended with the score 19 to 0 in favor of Maryville.

A few minutes before the first quarter was ended, Miller broke away with a wide end run and carried the ball through the Savannah defense for the second touchdown of the game. Cockayne kicked goal and the score was: Maryville 13, Savannah 0.

Bearcat Field.—A huge Homecoming crowd greeted the Spoofhounds and Savannah as Maryville kicked off to Savannah. This is the Spoofhounds' fifth game, and likewise for Savannah.

The line-ups:

Maryville: Godsey, le; Capt. Epperson, lt; P. Kissinger, lg; Roelofson, c; Howard, rg; Westfall, rt; Brown, re; H. Miller, qb; I. Miller, lhb; C. Kissinger, rhb; and Cockayne, fb.

Savannah: Powell, le; Jenkins, lt; Lagade, lg; Loveless, c; Etchison, rg; Russell, rt; Schmit, re; R. Smith, lhb; Pugh, fb; Osborne, rhb; and Pugh, qb.

Officials: Ted Packwood, Missouri, referee; Sitten, Grinnell, umpire; and Sprong, headlinesman; Raines, timekeepr.

Maryville recovered and on third play a pass H. Miller to Kissinger netted a touchdown. Maryville failed to kick. Score, Maryville 6, Savannah 0.

The first touchdown made one minute and 30 seconds after whistle blew.

Westfall hurt but kept in the game. Savannah penalized twice for offside. Savannah, from close up, appears rougher than necessary.

Cockayne, C. Kissinger and H. Miller doing most of gaining for Maryville. Spoofhounds halfbacks are spiking well.

Savannah unable to gain and punted twice. On second attempt, Maryville blocked and recovered.

OLD FRIENDSHIPS RENEWED AT H. S.

CLASSES SINCE 1888 ARE REPRESENTED THIS MORNING.

ALUMNI GIVES PROGRAM

John Spickerman of Class of '88 Leads Procession—Martin Lewis Jr., Chairman Program.

Fond recollections were recalled and old acquaintances renewed this morning at the High School auditorium when the alumni of the Maryville High School and the student body met in a general assembly and jointly rendered a program. Martin Lewis, Jr., of the class of 1917 was chairman of the program.

The program opened with a selection by the orchestra followed by a short talk by L. E. Ziegler, superintendent. Mr. Ziegler gave the reasons why the first home-coming for Maryville High School was planned. He also said that he was glad so many of the alumni could be present.

Representatives of graduating classes since 1888 marched in the auditorium, carrying a card with the date of their graduating class. John Spickerman fo the class of 1888 led the procession into the auditorium and was brought up by Joseph Phipps of the class of '24.

The high school auditorium was filled with the high school students and alumni who had come back to the scene of their high school days. After the representatives of the classes were seated the student body arose and cheered the alumni who were their guests today, and the alumni responded with as much vim as if they were on the sidelines of the football field.

Martin Lewis, Jr., gave a short talk in behalf of the alumni. His thoughts were that the alumni was willing at all times to assist the high school in whatever activity it should undertake and also spoke of the graduates as they leave. He said all had equal chances on the day they were graduated and a number from the Maryville High School had arisen to great heights, calling to name some of the old grads that had met with unusual success.

Mr. Lewis was followed with a response from the high school, Miss Dorothy McCord, representing the student body.

Mr. Lewis had charge of the program. It is given as follows:

March by High School orchestra.

Welcome address to High School by Martin Lewis, Jr.

Response for High School, Miss Dorothy McCord.

Piano solo—Mrs. Edwin Caldwell.

Vocal solo—Mrs. Don Martin.

Selection by orchestra.

Play by the Alumni.

High School songs, led by Miss Green.

The play given by the alumni was named "Punk," an amateur rehearsal.

The cast of characters included:

Gordon Roach, Robert Nicholas, Laura Margaret Raines, Laveta Epperson, Maurice Chick, Perry Eads and Mildred New.

New York Labor Swings to Davis

Announcement of the labor action was made public by the eastern Democratic headquarters and was hailed by officials there as a revolt in American Federation of Labor ranks which assured Mr. Davis "the support of approximately 700,000 union workers in the greater city."

The Method of Marking Your Ballot.

At the election Tuesday, a big ballot will be handed to you containing the seven party tickets. The method of marking the big ballot is simple. Nothing but cross marks should be used.

To vote a straight ticket only one mark is necessary, a cross in the circle at the top of the party ticket. In other words, if you desire to vote the straight Democratic ticket, put a cross in the circle at the top of that ticket. The same is true about voting the Republican straight ticket.

To vote a split ticket, you first make a cross in the circle at the top of your party ticket. Then to vote for any candidate of some other party make a cross in the square at the left of that candidate's name. For example if a Republican desires to vote for Nelson for governor or Campbell for sheriff on the Democratic ticket, he would place a cross in the circle at the top of the Republican party ticket, and then make a cross in the square opposite that candidate's name on the Democratic ticket. That automatically votes for him and against the candidates for the same office on all other tickets.

There is only one condition under which you should draw a line through any candidate's name. That is when you want to vote for someone who has not been nominated and whose name does not appear on any ticket.

On the amendment ballot, if you intend to vote in favor of any amendment you scratch "no" opposite that amendment. For example if you favor No. 5, the good roads amendment, scratch "No."

The official ballot will be run again in Monday's Democrat-Forum. If you still don't understand how to mark your ballot, get in touch with your party committee.

Stanfield car from the First M. E. Church a few weeks ago. Allen had been paroled from the reformatory by Mr. Crouse and his parole was revoked. He will now serve out his term at that institution.

Rev. Puckett at Baptist Church.

The Rev. T. J. Puckett of Maryville will occupy the pulpit of the Baptist Church at the Sunday morning service beginning at 11 o'clock. Special music will be given by members of the choir.

Voting is both a privilege and a duty, which an ever increasing number of American citizens have neglected in recent years. More than fifty per cent of the eligible voters of America failed to cast a ballot at the presidential election in 1920. To this one thing more than any other is attributable the ills which have afflicted the body politic in growing measure during recent years.

Vote Tuesday!

NEW TRANSMISSION LINE IS COMPLETED

CONNECTS UP MARYVILLE AND CLARINDA, IA.

IS PUT INTO SERVICE

Is Part of Vast Electrical System Owned By Continental Gas and Electric Corporation.

The new transmission line connecting Maryville and Clarinda, Ia. was completed and put into service about 4 o'clock yesterday afternoon. The completion of this line ties the Maryville generating plant into the balance of the system of the Continental Gas & Electric Corporation. The interconnection of the various plants of the system will further stabilize the service rendered by these plants and allow them to assist one another not only by furnishing additional power when needed, but with stand-by service in time of accident to any of the generating apparatus or boilers. This will also allow the various stations to shift the load from one to the other so as to obtain the greatest efficiency of operation at all times and enable the machinery to function under the best conditions.

The Maryville plant as well as the other plants are at all times operating or ready for operation with a full crew and boilers in readiness and every precaution is taken to assure continuous service. The Maryville plant being one of the efficient plants of the system will be used practically continuously, as the modern turbine installed a few years ago is able to assist greatly in putting current on the lines with a minimum expense of coal.

The line just completed is of the very highest type of construction and is built under the very latest standards of engineering. This line should give practically no trouble and only most extraordinary conditions should put it out of service. Even under that condition, as there are good plants at each end of the line, the towns served should not have service interruptions.

The modern enlarged plant at Lincoln, Nebr., should be tied into this system soon after the first of the year and will give another source of power on which to draw. No matter how great the demands of the growing communities may be this system is laid out with forethought to take care of their needs. The great advantages of an inter-connected system over an isolated plant, subject to fire, accident and other hazards can thus easily be seen and appreciated.

PENNSYLVANIA FUND NOW AT $800,000

PART OF G. O. P. FUND IS SENT TO NEBRASKA.

TRUSTS "BOSS" BUTLER

Joseph Grundy, Philadelphia Manufacturer, Has "Entire Confidence in Chairman"—Knows Nothing.

Washington, Oct. 31.—The pre-election investigation of campaign expenditures moved to its close today here and in Chicago.

It was agreed by all parties concerned that the inquiry should adjourn this evening until after the election.

The first witness this morning was Joseph Grundy, Philadelphia manufacturer, who revealed that the Republican collections in Pennsylvania now total nearly $800,000, although the state quota was originally placed at only $600,000.

"Are you still making an effort to collect more money?" asked Frank P. Walsh, La Follette's attorney.

"Oh yes," said Grundy, "right up until election day."

Walsh then asked Grundy if he knew that $100,000 of this amount had been sent into Nebraska.

"No, I am not aware of that," he replied.

Walsh then asked if Grundy was willing to have money collected in Pennsylvania go into other states "in violation of the corrupt practice act."

Grundy replied that he knew nothing of what was done with the money except that he turned it over to the Republican national committee and that he had "entire confidence in Chairman Butler."

DEMOCRATS MAKE THEIR FINAL DRIVE

LEADERS JUBILANT OVER NEW YORK SITUATION.

TURN FROM LA FOLLETTE

Central Trades Union Switches To John W. Davis Thus Placing Empire State in Doubtful Column.

New York, Oct. 31—Brushing aside and disregarding all the straw votes and other pre-election pointers which strongly indicate the election Tuesday of Calvin Coolidge, the Democrats are making a tremendous eleventh hour effort to secure the electoral vote of New York and New Jersey.

The Republican leaders are plainly worried and are making a desperate attempt to save New York and New Jersey from swinging over into the Democratic column.

Given these fifty-nine electoral votes, the Democratic leaders say they are willing to take their chances in the electoral college. This explains the seeming abandonment of the West by the Democrats in the final week of the campaign.

The Democrats are making undeniable progress in this final drive. This is indicated by the surprising about-face executed by the Central Trade and Labor Council in the last twenty-four hours. Last September, this council endorsed Senator Robert M. LaFollette. Today this same council is making every effort possible among its enormous membership of 700,000 persons to vote for John W. Davis.

This membership constitutes more than one-fifth of the entire enrollment in the American Federation of Labor.

Naturally the Democrats were jubilant today. Here, with one stroke, they say they have increased the Democratic vote in New York state by hundreds of thousands.

One of the Democratic generals in this final offensive here is Senator Pittman of Nevada.

He knows his West. Senator Pittman declared today that Davis will carry at least five states west of the Mississippi, Nevada, Kansas, Nebraska, Arizona and New Mexico, exclusive of the border states, Missouri and Oklahoma.

"And we have an equal chance of carrying New York, Illinois and Ohio," he said.

New York being the largest, the Democrats will concentrate their efforts there.

"Mind you," said Senator Pittman, "I am not taking into consideration LaFollette. If he carries four states, then Calvin Coolidge cannot be elected."

Few campaigns have ever witnessed such a last minute concentration of talent in one small area as is taking place this closing week.

Davis himself chose to spend all week here and tomorrow night will make his supreme and closing argument at Carnegie Hall.

HYDE AS A STOCK SALESMAN.

The absorption of a Missouri insurance company by a Colorado company reveals our versatile Governor in a new light. The stockholders of the Missouri company got about $8 a share for their holdings, with the exception of Gov. Hyde. He got $25 a share. Again, the other Missouri company stockholders were paid in stock of the Colorado company. Gov. Hyde got cash for his—spot cash.

With his customary modesty, however, Gov. Hyde disclaims any personal credit for this neat and profitable transaction. If laurel must be bestowed, twine it around the brow of a Kansas City attorney whom Gov. Hyde employed. It seems that Gov. Hyde had sold his stock long ago, receiving for it a note of $6,000, on which no payment of any kind had been made, account of principal or interest. But when the absorption was proposed Hyde turned over the stock and the note to the Kansas City barrister for collection, who shortly after mailed the Governor a check for $6,000.

To be sure, Gov. Hyde had some strategic advantage over the other stockholders. The merger could not be consummated without his consent and that of his brother, Ben Hyde, State Superintendent of Insurance. Moreover, the merger was not ratified until the Governor got his money.

This is the story and the moral is plain: As a Governor Arthur Hyde has proved himself a rattling good insurance stock salesman.—St. Louis Post-Dispatch.

GARDNER ANSWERS HYDE.

Former Governor Gardner in a speech at St. Joseph Wednesday night referred to the statement of Governor Hyde issued recently about his administration. Governor Gardner said:

"The Governor says that on January 1, 1925, there will be a balance of more than $1,000,000 in the general revenue funds. Now accepting that statement, it proves every charge that I have made, for remember that against that $1,000,000, which he will leave in the treasury January 1, there must be paid his December bills, which will not be presented until January, amounting to $650,000 (and this is a fair average, a fair estimate), there must be paid his deficiences, at a low and reasonable estimate of $1,250,000. So against the $1,000,000 he leaves there must be paid at a minimum $1,900,000. So that, according to his own figures he will be busted and $900,000 short.

"The Governor does not deny, and he cannot deny, that the cost of his administration will be 90 per cent more than mine to the people of this state.

"Gov. Hyde speaks in connection with the difference between his expenditures and my expenditures, that he paid the public schools $6,409,906 more money than did I. I am sure the Governor did not intend to have the public believe that of the $19,500,000 difference in cost of administration, $6,409,906 went to the public schools, because he knows, he certainly understands, that the public school fund is not involved in this huge difference of expenditures between his administration and mine.

"The Governor says that there is a total in the treasury of $11,427,480.47. I am sure also he would not have the people of the state to believe that this money which he mentions in the treasury is a surplus or money which may be appropriated by the legislature because he knows, and everybody knows, that this money he speaks of was placed in the treasury from the sale of road bonds, automobile licenses, school funds and other special funds for which the treasury merely acts as trustee, and over which he had nothing to do with the accumulating and over which he has nothing to do with the spending.

"Speaking of expenditures of the public schools, however, it is noteworthy that in each year during this administration the allowance for the school children has become less and less. In other words, during the year 1920, or the last year of the Democratic administration, we paid the public schools, we set aside for the school children, $4,712,436.68 whereas last year this administration set aside only $3,644,592.75, and this year will probably be even less, so that the last year of Democratic administration gave the school children $1,000,000 more than the last year of the Republican administration.

"With due respect to my distinguished successor, his own statement convicts his administration of extravagance, waste and a complete disregard of the taxpayers' interests, and I suggest to the taxpayers of this state, regardless of whether he be a farmer, business man or a banker, to look up his tax receipts for the four previous years of Democratic administration and for the last four years of Republican administration and compare them for himself. That will be the acid test. It is unnecessary to take either my word or Gov. Hyde's word for this. He has the proof in his own possession."

THE FARMER AND NUMBER 5

Some men who live in the country say they will vote against the proposed road amendment for different reasons. It is hard to believe that there is any good reason for a man on a farm or owning a farm in Missouri to vote against the proposed road amendment.

This amendment proposes to raise a fund to complete the state highway system, which will be one of the best systems in the United States when completed, by an increase of fifty per cent in auto licenses and a tax of two cents per gallon on gasoline. There are 525,000 automobiles already licensed in the state of Missouri of which more than half are in St. Louis, Kansas City and the larger cities. This means, in short, that the cities big and little are going to almost pay the cost of building these roads which will benefit every county and every piece of land in the state.

It not only means that the cities will pay the larger number of licenses but they will pay a larger average amount per car because most of the larger cars are in the cities. Fords and other small cars predominate in the country districts and they take the minimum license charge. So that the cities will not only pay on the larger number of cars but they will pay the larger average license on this larger number of cars. The average increase for Nodaway County on both large and small is only about $4.50 per year.

Now, as to the tax on gas. Two-thirds of the states already have a tax on gasoline ranging from one cent a gallon in some states to four cents in others, but in most of the states either two or three cents. This is a tax that you don't have to pay unless you use the gas. It will probably mean an increased cost in gas of about $1.25 per thousand miles of travel. A large part of the people do not travel more than a thousand miles per year and to them the cost would be practically nothing. The man who travels more and uses the road more would pay according to the amount of gas used which seems to be a fair proposition. Not only would those who travel most pay the most but tourists and out-of-state travelers would pay into our state treasury several hundred thousand dollars per year which can be applied to the upkeep of our roads where they do not now pay a cent.

Every state highway that is built through the county in which a man lives benefits that county and when the state takes over the control of a certain piece of road, it releases the county from work on that piece of road and leaves the county so much more money to improve the other roads of the county which are not in the state system. The man who lives away from a state highway is not only benefitted because it is somewhere within reach but this state road will likely make it possible for the county to eventually make the road out by his place almost as good or at least so good that he will be doubly benefitted.

Missouri has long been referred to in other states as the "mud hole of the United States." Being a mid continent state practically all travel from East to West and vice versa ought to come through Missouri but they have been deliberately detoured around this state because of bad roads. This will cease when our state system is completed and there has been a noticeable difference already.

The farmer and everybody else has enough property and direct taxes but this proposal is for a tax on no one unless he owns and drives a car and every mile of hard surfaced road over which he travels will save his tires, the amount of gas used and the upkeep and the life of his car and his time. It doesn't seem that there is any good reason why a rural resident should vote against it. Good roads place him in easy and daily access to every town or city around him and give him practically all the advantages of city life without its expense.

GOING BOTH WAYS.

A condition of "Coolidge and Chaos" is brought home to the voter by the campaign made by Senator Capper of Kansas. Senator Capper is running for re-election as a regular republican and is asking the people of Kansas to vote for him and President Coolidge. He is making a special plea for the votes of LaFollette men and in a letter to Dan Donnell of Kansas City, Kansas, said:

"I think Senator LaFollette and I have voted alike on practically all important matters." He then cited that both had voted "to throw Newberry out of the United States Senate," which every administration leader opposed, including Secretary Hughes, who was Mr. Newberry's attorney; that both voted for Japanese exclusion, which the President opposed; that both voted for the postal pay bill, which President Coolidge vetoed; that both voted to override the President's veto of the soldier bonus and Bursum pension bill; that both voted to oust Denby and Daugherty, which the President resisted to the last degree; that both voted for all farm bloc legislation proposed, which the President's spokesmen in Congress resisted at every turn and, in the main, defeated, and that both voted against the Mellon tax bill, which President Coolidge and Secretary Mellon advocated until forced to accept the substitute Democratic bill or assume the responsibility for no tax reduction whatever.

From which it is seen that Senator Capper claims to favor about everything that President Coolidge opposes. He is willing to try to ride horses going in exactly opposite directions. While asking support for himself on his own record, he is asking for support for the President on his record which was diametrically opposed to that of most of the western senators and representatives of this congress. So, here is the situation. If Mr. Coolidge is elected president, he will have a majority in both branches of Congress made up of men who vote and think similarly to Senator Capper and opposed to the things for which the President stands. They will not support the things Mr. Coolidge supports and there will be a continuation of the chaos that existed during the sessions of Congress since Mr. Coolidge has been president.

APPEALS TO THINKING PEOPLE.

One of the significant developments of this campaign is the large number of University and College presidents who have been Republicans, but who have openly declared themselves for Davis for president. As an able, outstanding member of the bar whose views are clean cut and direct as well as a polished orator and master of good English, he makes a wonderful appeal to the man who views the future with a desire for the general welfare and the perpetuity of high ideals in government regardless of the interests of selfish individuals.

Among such men are President Hibben of Princeton; Charles W. Elliott, President Emeritus of Harvard, President Garfield of Williams, a son of former President Garfield, and Dr. McCracken, President of Vassar College. Dr. McCracken fired a heavy shot at Mr. Coolidge in a recent letter. He says: "I shall work for Davis, because I prefer a man to a myth. I know something about Davis. I know he is the leading lawyer of the American bar. I know his opinion on every great issue. His record is an open book. He is a man of utter integrity. I fully trust him."

"I know nothing about Coolidge. He is a myth. Secrecy surrounds him. I can't find out the truth about his record as Governor. I don't even know whether he wrote the magazine articles he signed when he was vice-president. What else he did as vice-president I don't know. But he sat at Cabinet meetings with Fall and Denby and Daugherty and could see no reason for dismissing them when he came to the presidency. He is an edited man. He was put together in a publicity office and he will be plausible just as long as he can find some one to tell him what to think."

Stenographers ought to make good wives. They are about the only females who are willing to take dictation.

Two of the vice-presidential candidates have the same given names but that is as far as the similarity goes.

Where blisters appear on the piano, it might be well to instruct daughter to park her cigarets in the ash tray and save the furniture.

Here is something a lot of young fellows starting out should learn. It may save them grief and disappointment. It is simply this: If it were possible for them to get to the top of the ladder at a single bound, there would be no use for the lower rungs.

There's no great surprise in the poll being taken by the Literary Digest. The table it publishes by the side of its poll shows that cards were sent to three or four Republicans to one Democrat and it shouldn't be any surprise that the Republican candidate would have more votes in that poll than any other.

After all, my friends, so long as this is, and as it must be, a government by political parties, you cannot wash out any part of the record of a political party by having this, that or the other individual rise and say, "For myself, my conscience is clear and void of all offense." We try political parties in this country as corporate organizations, and if we wish to maintain the doctrine of party government, we must hold them to strict accountability for the things that they have done; and without that our whole machinery of popular government becomes a base fraud and an absolute deception.—John W. Davis.

Former Secretary William G. McAdoo is making speeches in the West. He struck the nail on the head at Albuquerque, New Mexico, when he said "this campaign is a three ring circus and privilege is chuckling in its sleeve because it has divided the forces of progressivism." He urged all progressives to unite on John W. Davis "who is the only man who has a chance to defeat Calvin Coolidge."

The following group of the hostesses' friends assisted in receiving the guests: Mrs. Edward Wright Gray, Mrs. Ralph Eversole, Mrs. L. E. Forsyth, Mrs. W. J. Montgomery, Mrs. M. L. Kept Marriage Secret.

(Stanberry Owl-Headlight)

The time usually comes in a young girl's life when there are many problems that confront her as she starts off to college. These problems are generally complexing, but not nearly so much as the problems that confronted Miss Mary Margaret Chattin before she left for school this fall.

Miss Chattin was to attend Hardin College at Mexico, Mo., this fall and the big problem that confronted her was that of marriage. So the marriage ceremony came before she left for school.

Miss Chattin and D. M. Bishop, Jr., of Ravenwood, drove over to Barnard, Mo., on Saturday, Sept. 6, and were married there by Rev. Alvah Huff of the Methodist church.

Nothing more was said about the marriage and two days later, Mrs. Bishop left for school. There was never a hint of the marriage until a school chum of hers found out the secret and immediately the school knew it.

So young Bishop went down to Mexico last Saturday and he and his bride returned to Stanberry. The first intimation that the Chattin family here had of the marriage was in a telegram last Thursday morning.

The bride is the younger daughter of Mr. and Mrs. George Chattin. She was graduated from the Stanberry High School last Fall. She is an attractive and vivacious young lady and she was very popular with her schoolmates here. She played on the basketball team during her high school years.

The groom is a son of Mr. and Mrs. D. M. Bishop of Ravenwood. He is a grandson of Dr. Bishop, so well known in this vicinity. He is a hustling young fellow and is well known in his neighborhood.

The happy young couple has been spending their time here and at Ravenwood and next week they will go to King City, where Mr. Bishop will be employed in the garage of his uncle, Cory Pettijohn.

The many friends of this young couple wish them an abundance of joy and happiness in their married life.

Program on Islamism.

Twenty-two members attended the October meeting of the Woman's Missionary Society of the Presbyterian Church at the home of Mrs. S. A. McClurg yesterday afternoon. Those participating in the program on Islamism and their topics were: Mrs. George Murray, "The Groups of Humanity Under Islam's Sway;" and Mrs. W. A. Tindall, "The Great White Territory: Development and Opportunity." During the social hour refreshments were served. The assisting hostesses were Mrs. Park and Mrs. Fred Jameson.

Rockford Community Club.

Members of the Rockford Community Club held their regular meeting at the home of Mrs. W. C. Hogan yesterday afternoon. Miss Margaret Davison of the Nodaway County health department gave a talk on home nursing. The following members were in attendance: Mrs. Alfred Jones, Mrs. John R. Evans, Mrs. Walter Smith, Mrs. Cal Williams, Mrs. Ernest Bainum, Mrs. Will Wells, Miss Odessa Wells and Miss Grace Williams.

Weiner and Marshmallow Roast.

Misses Anna Marie and Josephine Lattin gave a weiner and marshmallow roast at the home of their aunt, Miss Josie Stark, last evening in honor of the I. S. W's. The following members were present: Misses Estelle Dale Irby, Frona Dorman, Josephine Lattin, Anna Marie Lattin, Clara Jannetta Lattin, Catherine Lattin, Josie Stark, Mr. and Mrs. Lattin, John A. Lattin, George Gilbert, Millard Gilbert, Jay Caudell, Raymond Irby, Clifford Gilbert, Earl Gilbert, Charles Lattin, Oliver Lattin and Joe Lattin.

Hallowe'en Party.

Mr. and Mrs. Fay Florea of Pickering entertained their Sunday School class of the Pickering Christian Church and a few additional guests at a Hallowe'en party last night. Seasonable decorations were used and the guests came in costumes. Mrs. Floyd Fakes and Robert Gumm were winners of the game prizes. At the close of the evening appropriate refreshments were served. Those present were Mr. and Mrs. Foyd Fakes, Mr. and Mrs. Howard Null, Mr. and Mrs. Sanford Jones, Mr. and Mrs. Byron Hanna, Mr. and Mrs. Lowell Gray, Mr. and Mrs. Edward Hanna, Mr. and Mrs. Roy McMullin and daughter, Eva Laverne, Mr. and Mrs. Robert Gumm, Miss Gretchen Bishop, Miss Mary Walker, Miss Ethel Stanton and Mr. and Mrs. Florea and son, Junior.

Tacky Party.

Miss Ruth Matter and Mrs. O. K. Busby entertained with a Hallowe'en tacky party at the home of the former, northeast of Maryville, last night for members of the Wesleyan Bible class of the First Methodist Church and their families. The decorations were in keeping with the Hallowe'en season and various stunts were performed. S. A. Donahue, dressed as a woman, and Mrs. Anna Healy, as a man, won the prizes for the tackiest costumes. Doughnuts were served in a scoop shovel and other refreshments were cider, popcorn and apples. Among those present were Mrs. S. C. Richeson, Mrs. H. B. Cushman, Mrs. F. A. McKee and daughter, Berneta, Mr. and Mrs. J. W. Herndon, Mrs. Alma Healy, Miss Black, Miss Helen Bolin, Mr. and Mrs. Harry Hartness, Mr. and Mrs. O. K. Busby, Mrs. John Curnutt, Junior Curnutt, Mr. and Mrs. S. A. Donahue, Mr. and Mrs. Charles Wells, G. Matter, Mrs. T. B. Mumma, Mrs. B. E. Truesdell and Marjorie Curnutt.

Entertain at Dinner.

Mr. and Mrs. Harry Lyle entertained with a dinner at their home on West Third street for Mr. and Mrs. H. D. Mitchell and sons of Skidmore; and Mr. and Mrs. Burt K. Lewis and family of Ravenwood.

D. A. R. Tea.

One of the social affairs in connection with the annual convention of the Missouri division of American Association of University Women was the tea this afternoon extended by the Maryville Chapter, Daughters of the American Revolution, at the home of Mrs. Charles T. Bell on West Third street, complimentary to the visiting officers and delegates. In the receiving line with Mrs. Bell were Mrs. D. J. Thomas, D. A. R. regent; Miss Dora B. Smith, president of the Maryville branch, A. A. U. W.; Miss Lois Meek, national education secretary, Washington, D. C.; Miss Ruth Fitzgerald, state president, Warrensburg; and Miss Pauline Humphrey, state secretary and treasurer, Warrensburg.

The rooms throughout the residence were attractively decorated with chrysanthemums and other autumn flowers; Emma Ruth Bellows greeted the guests as they arrived. Chrysanthemums of various autumn tints formed the centerpiece for the tea table in the dining room where Mrs. Edward Wright Gray received. Presiding at the tea table were Mrs. Lauris Eek and Mrs. Dale Bellows, and Mrs. Allie Jean Brewer, Mrs. Forrest Gillam, Mrs. C. M. Hull and Miss Mae Corwin served. A musical program was given during the receiving hour, 4:30 to 5:30 o'clock.

Entertains Club.

Mrs. Harry Hunt was hostess at the meeting of the Thursday Afternoon Progressive Club yesterday afternoon. The members sewed for the hostess and discussed fine arts. Mrs. Cora Hubbard gave several musical selections. The hostess served refreshments and was assisted by Mrs. M. E. Bell. Mrs. Will Straugh was taken in as a new member. The members and guests present were Mrs. Cora Hubbard, Mrs. M. E. Bell, Mrs. M. P. Ross, Mrs. J. D. —to build up Weight!

ANY WOMAN, any man, can now have a well-developed face and form. The whole, simple secret of a well-developed form is in the number of blood-cells in your body. You can now forget all the theoretical talk about diet, exercise, fad treatments, food-fats and fat-foods. Nothing is of any use, after all, except blood-cells!

Thin, run-down men and women, with bony necks, sunken cheeks, bony shoulders—all these are suffering from one thing—too few blood-cells. Science has proved that S.S.S. helps to make the rich red-blood-cells, which you need. Your blood is starving for these new blood-cells! Give your blood the blood-cells it needs—take S.S.S. the great scientific blood-cell maker. S.S.S. has done marvels, too, in making beautiful complexions, clearing the skin, making lips rosy red, the cheeks full and plump—because it rids the blood of impurities which cause pimples, blackheads, acne, blotches, eczema, tetter, rash and rheumatism, too. As the medicinal ingredients of S.S.S. are purely vegetable, it may be taken with perfect safety. This is why S.S.S., since 1826, has meant to thousands of underweight men and women a plus in their strength. Start taking S.S.S. today and your great problem, that of your personal appearance, can be solved.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

Five Generations---1834-1924

(From Skidmore News).

It is needless to name the eldest party in the above group, but few realize that it represents the five generations of the James Parshall family. His son, Frank, is holding the little baby boy, which is the son of the lady on the left. The grandmother of the baby boy and daughter of Frank, is standing by Mr. James Parshall, and there is a lapse of almost ninety years between the eldest and youngest. Mr. Parshall has twelve grandchildren and fifteen great grandchildren.

"Uncle Jimmie" as most everyone here call him, was born in Ohio in 1834 and came to Iowa when four years of age where he remained until he moved to Quitman, Mo., in 1872. In 1877, he and Mrs. Parshall moved to the place where they now reside, 1½ miles southeast of Skidmore.

Mr. Parshall came west in the Indian days and has had many experiences in olden times. He was a neighbor of Mr. Meeker who drove an oxen team to the state of Oregon in 1841 and just recently made a trip back to this country in an airplane, on which many of the papers commented.

Mr. Parshall, although a few weeks less than ninety years of age, tends to his farm, raises strawberries and vegetables and drives a Ford car as well, and safer, than most of the younger generation. He was awarded first prize at Maryville last year for the oldest automobile driver. You can always find "Uncle Jimmie" ready to work for any cause which is for the betterment of the community.

There are eight children of the Parshall family now living who are known by many of this community. A. C. Parshall of Quitman; Frank, John and James Parshall, Jr., all of Kansas City; R. E. Parshall of St. Joseph; Fred Parshall and Mrs. Mary Rounds of Wray, Colo.; Mrs. Belle Duffey of Pattonsburg, Mo. Ella Jane Parshall died at the age of 16 and one girl died in infancy.

MOVING PICTURES

"Conductor 1492," which will be shown tonight and tomorrow at the Empire Theater is a typical Johnny Hines picture. It is a story of a young Irishman who leaves his native land to make his fortune in America. Before long, he dons the uniform of a motorman of the Loteda Traction Company. His job also includes that of conductor and his number is 1492—hence "Conductor 1492."

The supporting cast includes such favorites as Doris May, Dorothy Burns, Michael Dark, Ruth Renick, Robert Cain, Dan Mason, Fred Esmelton and Byron Sage. Direction is by his brother, Charles Hines, and Frank Griffen. It is a Warner Brothers classic of the screen.

THE CHICKEN DISEASED

Investigation concerning the mystery of the American Express chicken has revealed much this morning.

The officials at the Express office warn the now possessor of the stolen chicken to keep it off the stove, as the chicken was diseased and was in transit to Columbia for a diagnosis by the poultry specialists.

It was further learned that one Bud Rhodes had possessed the chicken at one time yesterday.

Shike Smith is also peeved that a "white boy proved more proficient at catching chickens."

TELLS MEANS TO CERTIFY FLOCK

OBJECT TO MAKE HIGH PRODUCING STOCK.

2 FLOCKS IN COUNTY

System of Certification Enables Owners to Buy Well Bred Cockerels—Only Demonstration Flocks Eligible.

The Missouri plan of certified breeding is a system of supervised breeding established by the Agricultural Extension Service in co-operation with the County Farm Bureau, according to J. Ross Fleetwood, county agent. The object of certified breeding plan, he says, is to make high producing stock available for distribution to farm poultry keepers.

Only flocks which have been successfully handled as demonstration flocks are eligible and only those demonstration flocks which are purebred and show an egg production of twenty-five eggs for each hen between November 1, and March 1, are considered for certified breeding. Mr. Fleetwood goes on to say that:

"Only hens which have passed through one or more laying seasons or pullets that were hatched from certified flocks are certified. Only males from hens having a trapnest record of more than 200 eggs in one year shall be used with certified females.

"The cockerels from these matings are carefully gone over by a poultry specialist from the College of Agriculture and only the best are certified. These birds are marked with sealed wing bands so that there is no danger of anyone selling cockerels as certified which have not actually been certified.

"This system of certification enables the flock owners to buy well bred cockerels from high producing flocks and any bird that is certified is a good one or else he is not certified. In this way the problem of selecting a good cockerel is solved for all certified birds are already selected.

"There are two certified flocks in this county and everyone wanting good cockerels of that breeding for the coming year would do well to see either of these flock owners.

"Mrs. A. E. Straub of Maryville, has the Buff Leghorns and J. Ward Stevenson of Graham, has the Single Comb Rhode Island Reds and Rhode Island Whites."

HALLEY INTERPRETS BOOK REVELATIONS

LARGE AUDIENCE HEARS HIS CLOSING RECITAL.

REVIVAL TO CONTINUE

"Stay for Church" Campaign to be Started in Christian Churches of the County.

A large audience heard the Rev. H. H. Halley in his closing recital at the Christian Church revival last night. He gave a recital and interpretation of the book of Revelations. Those who heard it are high in their praise of his methods of explanations, evidencing as it did long years of study on this much misunderstood book of Bible. Mr Halley leftlast night for Chicago where he will visit his home and then go on to Richmond, Ky., where he begins his next meeting next Sunday morning.

The local revival will continue with the leadership of the Rev. R. E. Snodgrass, the pastor, and Frank Tebow leading the singing. There will be the service at 7:30 tonight, but no meeting tomorrow night. Preparations are being made for a big day next Sunday, and it is expected that there will be several additions to the church. There were no invitations during Mr. Halley's lectures.

Mr. Tebow is announcing a large chorus-choir and will appreciate the help of all singers. The men's class in the Sunday School is planning for a special attendance next Sunday morning in the I. O. O. F. Hall. This is the beginning of an attendance campaign which will continue through the winter.

The Christian Churches of the county are beginning a "Stay for Church" campaign next Sunday morning. The count will be made of the attendance in the Sunday School and also of the number who will remain for the preaching services, and the church holding the highest percentage at the close, March 1, will be given some special recognition. The local church will co-operate in this plan so they are eager that all who attend the school next Sunday will remain for the preaching hour.

There will be preaching at Rockford Sunday morning at 11 o'clock by the Rev. Fanning of Quitman.

STOP! LOOK! LISTEN!

It's Coolidge or Chaos

The people of these United States of America today are the luckiest human beings that ever the bright sun in Heaven has been permitted to shine down upon.

They are better fed, better clothed, better housed, than any other men and women who have walked this earth since that day that Adam and Eve quit playing in the Garden of Eden.

They own 15,500,000 automobiles and are riding in a style and at a speed that would have put to shame the kings of earth in regal chariots of any other age.

They are spending more money on Luxuries and in the Pursuit of Pleasure than was spent for the necessities of life a few years ago.

They should be the Happiest and most Contented sons of Adam and daughters of Eve who ever walked this earth.

And yet there are some people in the United States—a few right here in this good old state of Missouri—who seem willing to take a chance on destroying the prosperity of this great country and to go chasing after chimerical promises made by men who were never known to redeem a public promise. They seem to think that if the whole world was Turned Upside Down some few things might then be Right Side Up.

They are ready to create a Governmental condition which would surely bring Sorrow to some, and might bring Disaster to all.

They know that if President Coolidge is re-elected Confidence will hold firm and Business will go on without a jar.

They know that if the election of the next President goes to Congress Uncertainty will Prevail; there will be a running of money to cover; business will slow down; merchants will curtail their orders; wholesalers and jobbers will buy less; manufacturers will be compelled to either close their plants or else run on short time and with limited help; the railroads will be carrying fewer passengers and less freight; trains will be laid off—and some of the men who Started the Wreck will find themselves Out of a Job.

With hundreds of thousands of men out of work, less food can be bought, and the Farmers particularly will suffer because of a lack of market for their products and consequent lowered prices for farm commodities.

Nobody Wins in a time of Panic—we all Lose together.

God's richest gift is wit to keep the cup
In which He poureth blessings right side up.

Can the people of these United States of America afford to kick over the Cup of Prosperity that they now enjoy by registering a Foolish Verdict on election day?

If President Coolidge is elected, Business will continue to Move Forward.

Any other election result will create Doubt; throwing the election into Congress would almost surely bring Disaster.

Men and women of Missouri, look well to your vote.

Republican Votes count for Prosperity—any other vote spells Doubt, doubtless it registers for Disaster.

SAM A. BAKER would make a Safe and Progressive Governor of Missouri, and the men running with him on the Republican Ticket are also all Good Men, qualified for the positions for which they have been nominated. Vote for Them.

BEATS ELECTRIC OR GAS.

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Burns 94 per cent air, and 6 per cent common kerosene (coal oil).

The inventor, H. A. Johnson, 609 W. Lake St., Chicago, Ill., is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $250 to $500 per month.—Adv.

C. G. Swinford Sr., had his collar bone broken Wednesday by being thrown from a scaffold while doing some carpenter work at the G. B. McArthur place. The injury will keep him from work for some time.

At the Vere Hall sale three miles northwest of Pickering on Wednesday corn sold at $1.02 per bushel. A bunch of sheats sold at about 6c per pound. Milk cows sold readily and seemed to be the article most sought after.

HOW DOCTORS TREAT COLDS AND THE FLU

To break up a cold over night or to cut short an attack of grippe, influenza or sore throat, physicians and druggists are now recommending Calotabs, the nauseless Calomel tablet, that is purified from dangerous and sickening effects. Those who have tried it say that it acts like magic, by far more effective and certain than the old style calomel, heretofore recommended by physicians.

One or two Calotabs at bed time with a swallow of water,—that's all. No salts, no nausea nor the slightest interference with eating, work or pleasures. Next morning your cold has vanished and your system feels refreshed and purified. Calotabs are sold only in original sealed packages, price ten cents for the vest-pocket size; thirty-five cents for the large family package. Recommended and guaranteed by druggists. Your money back if you are not delighted.—adv.

HUSBAND SAID WHY NOT TRY IT

Wife Said She Would. Result, Lydia E. Pinkham's Vegetable Compound Made Her Well and Strong

East Hardwick, Vt.—"Last winter I was not able to do any work at all. I had backache, headache, side ache, and was sick all the time for six months. We read about Lydia E. Pinkham's Vegetable Compound in the newspapers, and my husband said to me, 'Why don't you try it?' So I said I would, and he went and got me a dozen bottles. It has done me more good than I can ever tell, and my friends say, 'What have you done to yourself? You look so well.' I tell them it is the Vegetable Compound that makes me so well and strong. There is no use to suffer with backache and pains. I will tell every one what it has done for me."—Mrs. Fred. Primo, Route No. 2, East Hardwick, Vermont.

Housewives make a great mistake in allowing themselves to become so ill that it is well-nigh impossible for them to attend to their household duties.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, 98 out of every 100 report they were benefited by its use. For sale by druggists everywhere.

Nelson Replies to a Challenge

Dr. Arthur W. Nelson, Democratic candidate for Governor, speaking Wednesday to the Post Dispatch over the telephone from Cape Girardeau, where he addressed two large meetings last night, replied to a challenge delivered by Sam A. Baker, his Republican opponent, at the Coliseum last night.

Baker, reading an affidavit he had made earlier in the day, called upon Nelson to make an affidavit offering, if elected, to resign if there appeared any creditable evidence that he had attended a klan meeting.

" I have made a full and complete statement of every contact I ever have had with the Ku Klux Klan, which consisted of being a mere onlooker," Dr. Nelson said. "There is nothing to add to or detract from the statement I have repeatedly made through the newspapers and to my audiences. As to the affidavit, I would say that a man's word should be as good as his oath."

Hanamo Co. Denies Reciprocal Service

(Barnard Bulletin).

The Hanamo Company of Maryville deny the Barnard people service that we have had since the Farmers Union at Barnard was organized.

The Maryville lines, one to the Farmers Central and the other to the Hanamo Central has been in bad shape for some time and Dwight Davis, while manager made a contract for the rebuilding of these lines. The lines could not be built on account of the state road until after the surveys were completed. The lines were rebuilt at the same time but the manager at Maryville refuses to give connection.

This line has been rebuilt under the original contract at a cost of something like $325.00.

Some action will be taken at once to try and obtain this service as in past years as the action of the Maryville people is an injustice not only to the patrons of the Barnard exchange but also to the business men and patrons of the Maryville central.

The Digest Poll in 1912.

Those who have memories reaching back to 1912, the last time two Republicans tried to beat one Democrat for the presidency, will recall that the Digest then conducted a straw vote in the interest of Mr. Taft, and that the result of its millions of ballots, as announced in its last issue before the 1912 election, was that Taft would carry 290 votes in the electoral college, 266 then, as now, being necessary to elect. Mr. Taft had eight out of 531. Mr. Roosevelt had 88 and Mr. Wilson 435. This shows what such a poll is really worth, but nobody tells us just where the money comes from to pay the enormous expense of the enterprise.

Mrs. Morrow's Campaign Based on Appeal to Women

Mrs. Kate S. Morrow, Democratic nominee for Secretary of State, is conducting a unique campaign. She has traveled through 75 of Missouri's 114 counties and has delivered as many as ten addresses a day, but in none of them has she discussed issues or attacked the administration of her Republican opponent, Charles U. Becker.

Memory of man does not go back to the day when one seeking election to office could not pick flaws in the administration of the incumbent. But it appears that in the campaign to wrest the state from the Republicans, Mrs. Morrow has been delegated to win over the women and appeal for a maximum vote.

To the men she leaves the sharp words and vigorous denunciations. It was arranged that Elmer Jones, nominee for Attorney-General, or Carter M. Buford, nominee for Lieutenant-Governor, would point out the deficiencies in Secretary of State Becker's administration, usually from the same platform from which Mrs. Morrow speaks. She merely appeals to the women, asks every voter to exercise the franchise, and promises that her administration will be economical.

Ideas of Economy.

Mrs. Morrow's ideas of economy are drawn fundamentally from the principles of home management, and are backed by twelve years of experience in state departments at Jefferson City. She will not, however, have economy confused with saving.

"An undirected idea of saving will not be instituted if I am elected," she said. "I will not make ruthless cuts in personnel or practices except where it is apparent that no purpose is accomplished by retaining them. I want to see that the department is conducted with the smallest expenditure consistent with efficiency. My effort will be directed toward giving the best possible administration at the lowest cost."

Mrs. Morrow believes her experience fits her for the position and she is anxious to "show" Missouri that women can handle offices efficiently.

Mrs. Morrow, a widow, is a trim little woman of motherly mien. Her manner of address is pleasing and without oratorical effort. She merely recites her experience at Jefferson City, her belief in the capability of women, and leaves the mater of a choice to the voter.

Her Previous Experience.

Mrs. Morrow is a former secretary of the state Public Service Commission and assistant secretary of the Railroad and Warehouse Commission. She has been an active Democrat since the women's suffrage amendment was adopted and was until recently secretary of the Democratic State Committee.

New Mexico now has a woman for secretary of state and Minnesota, North Dakota, Montana and West Virginia have women candidates for that office.

And McBride Penalized Maryville 15 Yards

C. E. McBride, sports editor of the Kansas City Star, who refereed the Maryville-Highland football game a week ago today, has the following to say about a particular play in this game in the Thursday issue of the Kansas City Star:

Football officials run across numerous odd plays. Last week a pair of Kansas City members of the "burglars union" brought back a choice one from the Maryville-Highland game at Maryville.

Highland made a forward pass, which Maryville intercepted. The Maryville player who intercepted the pass was tackled and fumbled the ball. Another Maryville player picked up the ball, took a step or two and then threw the ball forward eight or ten yards. There it rolled until the referee blew it dead.

The boy who threw the ball believed an incompleted pass had been made. He hadn't seen the original pass intercepted and fumbled.

A 15-yard penalty was assessed against the Maryville team from the spot where the Maryville player threw the ball forward. It was Maryville's ball, first and ten. Only the team putting the ball in play by a scrimmage has the right to make a forward pass, and no player has the right to intentionally ground a pass. The referee applied the former rule.
